"I think the work we have to do in groups in the chatrooms are very nice and interesting. I really enjoy it. But also the time when we are as a whole class, because we are less students now, so everyone is interacting.

I like the online class very much. It is different of course, but I think we can still learn well, especially because we are talking more now. And you also get used to it quite fast, after two weeks it already felt very normal to me and I knew how to use the app and how to interact exactly."

3. Live teacher contact time

At the heart of every **SmartClass** course is direct live contact time with our expert Kings teachers. Students have 12.5 hours per week of live interaction with their teacher.

Classes of between 4 – 8 students mean lots of **personalised teacher contact**.

Optional 1-2-1 lessons can also be added. Prices on request and subject to availability.

4. Lessons to suit different time zones

Students can choose lessons delivered according to their own time zone.

This can be requested when booking.

Online courses give you full control of what you're learning and your learning experience because the schedule is very flexible. There is more time for self-study and the comfort to learn at your own pace.

"I have most enjoyed the grammar lessons because the interaction is interesting when we break up into smaller teams online. You have more space to be comfortable and it doesn't matter if you're shy because you have more privacy than in a classroom."

5. Friends from around the world

With **SmartClass** students can share learning with new friends from all over the world. They can interact with their friends in class, out of class – and stay friends after their course has finished.

6. Real outcomes

Progress is tracked through regular assessment of class participation, tests and assignments. Every student completing the full course receives a Kings Certificate of Completion.

Students preparing for IELTS or TOEFL will be fully prepared to maximise their test scores.

Kings teacher

"It's really nice to interact with students while they're in their home countries. A lot of speaking tasks work pretty much the same as they do in the classroom. I believe that students will not only learn English, but also vital skills for conducting online video calls and meetings once they reach the world of work."

Gabrielle Conway-Morris
English Teacher
